SUPPLEMENTARY INFORMATION:

Proposed Action

The purpose of the study is to identify the preferred alternative to modify the existing dam to meet current hydrologic and seismic criteria.

Reasonable Alternatives

Several alternatives will be considered for modifying the project. It has been determined that improvements to the project will be necessary to accommodate the Probable Maximum Flood (PMF). Three alternatives have been identified. Alternative 1 consists of raising the dam. Alternative 2 consists of an auxiliary spillway. Alternative 3 consists of partial overtopping of the dam.

Scoping process

a. The scoping process for the Bluestone DSA study and DEIS will include a series of public involvement meetings and workshops so that the proposed actions and alternative corrective measures can receive widespread public awareness. Through the public involvement program and media announcements, the Federal, state and local agencies as well as other affected and concerned organizations will be kept abreast of the study by the Corps of Engineers.

b. Potentially significant issues for NEPA consideration have been identified. (1) The capability of the 50-year-old project to adequately and safely provide needed services will be reviewed by evaluating the design of the project through application of current modern engineering design criteria. (2) Potential adjustments to the project will be considered and screened to identify a suitable modernization plan for the project, and associated operation and construction impacts will be assessed with and without adjustment. (3) It is anticipated that the potential improvement of the project to increase the capability for adequately and safely accommodating extreme events may be regarded as a significant Federal action.

c. The DEIS will be developed under the guidance, requirements, and format in 40 CFR 1502.9c and 1502.10. Consultation will be conducted with the U.S. Fish and Wildlife Service and the Environmental Protection Agency during the NEPA process, pursuant to the requirements of the Fish and Wildlife Coordination Act, the Endangered Species Act, the Heritage Conservation and Recreation Service and State Historic Preservation Act, and

the Preservation of Historic and Archeological Data and EO 11593.

Deis Availability

It is anticipated that the DEIS will be available for public review by June 1997.
